4.) Graham Stetzer Filters: \$35.00 ea. or \$ 700.00/ box of 20 complete house

Microsurge Meter: \$99.95

Helps combat the negative effects of electrical pollution and can alleviate some symptoms of fatigue, depression, insomnia, headaches, body aches and memory loss. Research indicates there has been substantial improvement in the quality of life f those people who are sensitive to excessive levels of electrical current. Recommended for the average home to install 20 filters. Just plug the filters directly into outlet or power strip after testing with the Microsurge Meter. This meter is designed to measure only the high

frequency noise. The meter is very
Graham-Stetzer Filters to the same

easy to use. Simply plug the meter into an outlet. Then add outlet and nearby outlets and watch the reading decrease.

Mitigation Solutions

1.) RF Shielding “Bed Canopies”

Available in King, Queen, Double and Single Sizes: Call us for recommendations.

2.) EMF Shielding Paint

1 Liter – \$79.00 5 Liters- \$340.00

YSHIELD shielding paints are electro-conductive coatings for the protection of large areas from electromagnetic radiation (EMR). They offer the best shielding qualities for protection against **high frequency(HF)** radiation and (or) against **low-frequency (LF)** electric fields. For living areas and covered with your choice of paint.

“NEW” Harmonization for EMR in your home and for electronics!

3.) Cell Phone Harmonizer: **K.Dwell** - CHIPS \$ 75.00

Consists of a thin carrier film containing powerful mineral substances. This is covered by a film which provides additional protection to the k.Dwell- Chip. The minerals collect free energy from the radiation waves, convert it and then transfer it to the body, resulting in an upsurge in our meridian's natural energy levels. Using Autonomic Response Testing, a kinesiology-based testing method, it has been shown that the k.Dwell Chip helps raise vital energy levels and release energy blockages to harmonize energy flow. Simply place the “**blue colored**” side of the Chip facedown onto the battery in your device and replace the phone's battery cover, or use sticky tape to attach the k.Dwell Chip onto the outside case of your device.

4.) Computer Harmonizer: **K.Dwell-Stick**: \$150.00

Designed by **Klinghardt Academy** to counteract the negative effects of electro-smog

The positive effects of using a k.Dwell-Stick include the strengthening of your power of concentration and performance, and an improved regeneration of our body.

E-smog exists as a result of electromagnetic fields and radio waves such as those emitted by computers, wireless routers and wireless phones. The k.Dwell works as a filter against man-made electro-magnetic fields and radio waves and can be comparable to a “noise filter” that helps prevent traffic noise. [How to use the Stick](#)

Simply plug the k.Dwell– stick into the USB port of your computer or Mac. Nothing else is required; however you may use your stick for data storage, or even as a **protective pendant** !

5.) **Earthing** Bed Pad Set: and DVD **Klinghardt Edition**: special \$199.00
